

04/01/2022

Meeting Start: 4:05 PM CST

Present:

- **Raven Zucchelli**
- **Abigail Zucchelli**
- **Wasif Siddiqui**
- **Kumail Bukhari**
- **Aiden Nguyen**
- **Cedric Lee**

Notes:

- Demo on 04/08
 - Show amplify automating with CI/CD
 - Change a job title
 - Redeploy the app
 - Demo the changes with timestamps, no real time needed
 - Show we show the serverless function that amplify creates on cloudfront?
 - Yes
 - Show how to kickoff an automated job
 - Here's the old one
 - The new one
 - Showcase CI/CD
 - Possible to host in real time?
 - Time a commit to show change after demo
 - Do we have to show the github changes?
 - Up to us
 - "Let's do a demo of the survey, then we'll change the colors"
 - Then make a quick change and re-demonstrate the survey
 - Change before initial demo, then show the change
 - Audience is cedric, david, manager, and michelle
 - Non technical
 - For phase 2 cors permanent fix
 - Calculate cost to fix if unable to fix this semester
 - Just mention tech debt and possible solution, next team will figure out how to work around the issue

Meeting End: 4:26 PM CST
